Mardiyyah Apampa

apampamardiyyah@gmail.com Portfolio Mardiyyah Apampa Mardiyyah-Apampa

PROFILE

Computer Science graduate with experience in software development, data analysis, and database management. Skilled in full-stack development, Power BI for data visualization, and working with relational and NoSQL databases such as MySQL and MongoDB. Also experienced in building user-focused applications, with academic and practical interests in Software Engineering, Artificial Intelligence, Robotics, and Human–Computer Interaction.

WORK EXPERIENCE

Software Development Intern 07/2025 – 09/2025
triBBBal LLC
- Developed a full-stack PHP-based social networking platform, implementing core features including authentication, user profiles, post feeds, search, and dynamic content using a custom MVC-like architecture.
- Built real-time communication and community features using AJAX and Node.js WebSockets, including chat, forums, notifications, and file uploads.
- Designed and managed MySQL databases and an administrative dashboard while creating a responsive, cohesive user interface and scalable project structure.

Data Analyst Intern 07/2024 – 09/2024
Pay Vantage Limited
- Gathered and processed large data sets using SQL and PowerBI, ensuring accuracy for financial performance analysis on metrics like transaction volumes and revenue.
- Developed interactive dashboards and reports in PowerBI, simplifying complex data for senior management decision-making.
- Assisted in backend development, learning of a bit of Java and Spring Boot to understand fintech data processing.

EDUCATION

Pan-Atlantic University 10/2022 – 07/2026 | Lagos, Nigeria
BSc. Computer Science
CGPA: 4.55/5.0 Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Data Management, HCI

PROJECTS

Voice-Controlled Robot Interface
Unity, C#, Python Flask, SpeechBrain, NavMeshAgent
- Designed and developed a voice-controlled robot interface for users with physical disabilities.
- Integrated speech recognition, speaker verification, and Unity-based robot navigation.
- Evaluated the system using functional suitability, usability, and reliability criteria.

PayVantage Dashboard
Power BI, Data Analysis, Dashboard Reporting
- Developed an interactive Power BI dashboard during my internship at PayVantage to track key operational metrics.
- Visualized completed transactions, successful transactions, network performance, and response rates.
- Provided clear insights to support daily monitoring, performance analysis, and data-driven decision-making.

Social Networking Platform
PHP, MySQL, JavaScript, AJAX, Node.js WebSockets
- Developed a full-stack PHP-based social networking platform for triBBBal LLC with authentication, user profiles, post feeds, search, and dynamic content features.
- Implemented real-time community features including chat, forums, notifications, and file uploads using AJAX and Node.js WebSockets.
- Designed and managed MySQL database structures and built an administrative dashboard to support user management, content monitoring, and platform operations.

LEADERSHIP EXPERIENCE

PAU Muslim Committee 04/2024 – 04/2025
Event Co-ordinator and Welfare Officer
- Co-ordinated events of the community and ensure compliance with Islamic principles.
- Organized a welcome event to formally introduce the new comers into PAU.
- Checking and seeing to the welfare of members, by verbal and non-verbal actions.

VOLUNTEER ACTIVITIES

Peer-2-Peer Tutor 11/2024 – Present
Pan-Atlantic University

Ushering and Registration Volunteer 09/2024 – 11/2024
TEDXPAU

SKILLS

Technical Skills
- PowerBi
- C++
- Python
- React
- Unity
- C#
- PHP
- HTML
- CSS
- PostgreSQL
- MySQL
- MongoDB
- Rust

Soft Skills
Team coordination, Conflict resolution, Leadership, Decision-making under pressure, Strategic planning

Languages
Fluent in English and Yoruba
